

Surge Protector Instructions

Read and follow all instructions and warranty information prior to use to ensure protection to connected equipment and warranty compliance.

1. Plug the surge protector into a standard grounding duplex wall receptacle. Ensure there are no exposed conductors.
2. Make sure electronic equipment is turned off before plugging into the surge protector outlets. Do not use extension cords to connect equipment to the surge protector.
3. Move power switch to "RESET." Your surge unit should be providing surge protection.
4. Connected equipment can now be turned on.

NOTE: *In the event that the protection capacity is exceeded by a power surge or the protection components expire, the power will be permanently shut down to the outlets, ensuring surge protection for your electronic equipment. At this time, the surge protector has reached end of life and must be replaced.*

Surge protector — limited-lifetime warranty

Jasco Products Company warrants this surge protector to be free of defects in design, assembly, materials and workmanship for the life* of the surge protector. If such a defect should arise during the life of the surge protector, Jasco will, at its option, either repair or replace the surge protector without charge. This warranty does not cover damage caused by accident, misuse or alterations to the surge protector, or natural disasters of any kind.

NOTE: Do not use this product in any way with a generator, heater, sump pump, water-related device, life-support device, medical device, or car, motorcycle or golf cart battery charger. This product is for indoor use in dry areas only. All warranties of this product are null and void if used in any manner mentioned above.

*This surge protector, like all surge protectors, has a finite lifespan. Even under normal circumstances and in the absence of defects, the product's life will expire when the surge protector's component capacity has been exceeded, thereby ceasing to provide protection from surges. In this event, the limited-lifetime warranty is no longer valid and the surge protector should be replaced.

Warranty replacement procedure

1. Call Jasco Customer Information Center at 1-800-654-8483 to get a Return Authorization Number (RA#), shipping instructions and a prepaid return address label.
2. After you have received the prepaid return address label, return the Jasco surge protector, freight prepaid, to Jasco. Surge protectors returned to Jasco must have an RA# included in the mailing address to be accepted.
3. The original purchaser will be asked to send the surge protector, a copy of the sales receipt for the product, his/her name, address, phone number and a description of the problem.

Connected equipment warranty

Equipment replacement guarantee for surge model: 46867
Maximum warranty amount: \$60,000 (USD)

NOTE: *This device is not a lightning arrestor. It will not afford protection when lightning strikes nearby power lines, the house, service entrance or antenna.*

The warranty is void if a power disturbance damages your equipment through the coax, phone or network lines.

Jasco will pay up to the maximum warranty amount offered for the surge protector purchased to repair or replace up to an amount equal to the fair market value or the original purchase price, whichever is less, of your electronics equipment if damaged by a transient surge within the life of the surge protector while properly and directly connected to this surge protector. **JASCO DISCLAIMS AND ASSUMES NO LIABILITY FOR ANY OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING BUT NOT LIMITED TO LOSS OR DAMAGE TO SOFTWARE OR DATA OR DAMAGES OR COSTS ASSOCIATED WITH BUSINESS INTERRUPTION OR OTHER DAMAGES DUE TO LOSS OR DAMAGE TO EQUIPMENT, SOFTWARE OR DATA.** Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state.

Jasco reserves the right to inspect the surge protector involved in an incident associated with a warranty claim, along with the site where the damage occurred and all equipment plugged into the surge protector or nearby AC outlets. The surge protector, damage site and any equipment involved must remain available for inspection until the claim is finalized.

Jasco reserves the right to subrogate under any existing insurance policies the claimant may have. This warranty is valid and available only to the original purchaser of the product.

This warranty is secondary to any existing coverage of any connected equipment, including but not limited to, any manufacturer's warranty, extended warranties or insurance coverage.

To qualify for a connected equipment warranty:

1. All connected equipment must be certified by a nationally recognized testing laboratory.
2. The Jasco surge protector must be plugged into properly wired and grounded outlets, no extension cords, adapters, other ground wires, or electrical connectors may be used, with the sole exception of other standard Jasco 120V products approved for that use. The installation must comply with all applicable electrical and safety codes set forth pursuant to the National Electrical Code (NEC).
3. Any claim under the warranty policy must be made within 15 days of the date of the alleged damage to the connected equipment.

For connected equipment coverage, the following conditions must be satisfied:

- A. All equipment eligible for warranty coverage must be plugged directly into the Jasco surge protector. Equipment connected to the protected equipment, but not plugged directly into the surge protector will not be covered.
- B. The equipment must have been damaged by a covered power disturbance that passed through the Jasco surge protector.
- C. The Jasco surge protector must be found defective.
- D. The Jasco surge protector's component capacity must not have been exceeded.
- E. All connected equipment must have been used under normal operating conditions and according to any manufacturer's instructions.

Connected equipment claim procedure

1. Call Jasco Customer Information Center at 1-800-654-8483 to receive a Return Authorization Number (RA#), shipping instructions and a prepaid return address label.
2. After you have received the prepaid return address label, return the Jasco surge protector, freight prepaid, to Jasco. Surge protectors returned to Jasco, must have an RA# included in the mailing address to be accepted.
3. Jasco will determine whether the damage to your equipment is covered by this warranty policy. If you are covered, a claims adjuster will contact you and Jasco will do one of the following at its own discretion:
 - a) Authorize a service center to repair damaged equipment.
 - b) Replace damaged equipment with equivalent or better.
 - c) Reimburse customer the fair market value of the damaged equipment.
 - d) Reimburse customer the initial purchase price of the damaged equipment (customer to provide dated bill of sale).
4. Jasco retains the right to determine whether the damage to the connected equipment is due to Jasco surge protector failure by requesting damaged equipment be sent to Jasco for inspection.

Specifications

Electrical rating.....	120VAC, 15A, 1800W
Joule rating	620
Voltage protection rating.....	400V (L-N)

WARNING

RISK OF ELECTRIC SHOCK

- DO NOT USE IN WET LOCATIONS
- KEEP CHILDREN AWAY
- USE INDOORS ONLY
- FULLY INSERT PLUG

RISK OF FIRE

- DO NOT EXCEED ELECTRICAL RATINGS
- DO NOT PLUG INTO ANOTHER RELOCATABLE POWER TAP, SURGE PROTECTOR OR AN EXTENSION CORD

NOT FOR USE WITH

- AQUARIUMS OR OTHER WATER-RELATED PRODUCTS
- GENERATORS, POWER INVERTERS, HEATERS, SUMP PUMPS, OR CAR, MOTORCYCLE OR GOLF CART BATTERY CHARGERS
- MEDICAL LIFE-SUPPORT PRODUCTS

NOTE: This device features an internal protection that will disconnect the surge protective component at the end of its useful life, but will maintain power to the outlets — now unprotected. If the indicator light goes out, this unit will no longer provide surge protection as intended and should be replaced.

Questions? Contact our U.S.-based Consumer Care at 1-800-654-8483 between 7AM—8PM CST.

1. Enchufe el supresor de sobretensiones en un tomacorriente mural estándar doble con conexión a tierra. Asegúrese de que no haya ningún conductor expuesto.
2. Asegúrese de que el equipo electrónico esté apagado antes de enchufarlo al tomacorriente del supresor de sobretensiones. No utilice un cable de extensión para conectar el equipo al supresor de sobretensiones.
3. Coloque el interruptor de tensión en posición "RESET" (reiniciar). El supresor debería haber quedado habilitado para proteger contra sobretensiones.
4. Ahora puede encender el aparato conectado.

1. Llame al Jasco Customer Information Center al 1-800-654-8483 para recibir un Número de Autorización de Devolución (RA#), las instrucciones de envío y una etiqueta de dirección de devolución prepagada.
2. Después su reciba la etiqueta de porte prepagado, devuelva el estabilizador de voltaje Jasco, con porte prepagado, a Jasco Para ser aceptados, los estabilizadores de voltaje devueltos a Jasco deben incluir un RA# en la dirección de correspondencia.
3. Se le pedirá al comprador original que envíe el estabilizador de voltaje, una copia del recibo de compra del producto, el nombre, dirección y número telefónico y

A. Todos los equipos elegibles para la cobertura de la garantía debieron estar conectados directamente al estabilizador de voltaje Jasco, Inc. No se cubrirá equipos conectados al equipo protegido, pero no conectados directamente al estabilizador de voltaje.

B. El equipo debió haber sido dañado por una alteración de la corriente eléctrica cubierta que pasó a través del estabilizador de voltaje Jasco.

- GENERADORES Y TRANSFORMADORES CALENTADORES, BOMBAS DE SUMIDERO, CARGADORES DE BATERÍAS DE AUTOMÓVIL, MOTOCICLETA O CARRO DE GOLF.
- EQUIPOS PARA EL MANTENIMIENTO DE FUNCIONES VITALES
