

# Bias Lighting Backlight Bracket User Manual

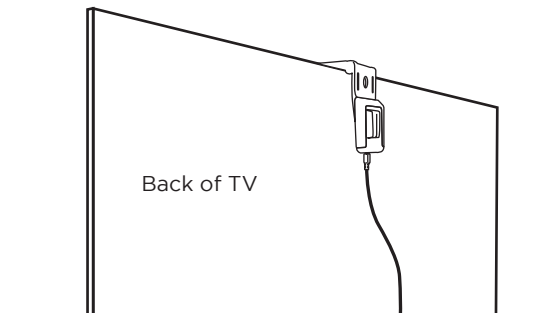

Connect the Micro USB cable to the bracket.  
Insert the USB-A connector into the TV's USB-A port or a USB-A power adapter (not included).

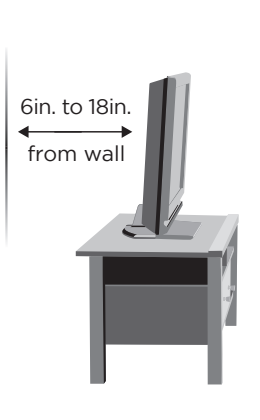

Use provided hook-and-loop tape to place lighting control switch in desired location.

Place the bracket on top of the TV with the light facing the wall.

Best TV placement for enhanced viewing when using the lighting feature

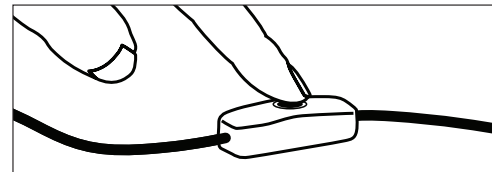

Tilt and full-motion TV mounts

Lighting feature does not work with fixed- or flush-mounted TVs

To operate the bias light, press and release the ON/OFF button.

**At 6500K**, the white light produced by this bracket is scientifically proven to reduce eyestrain and enhance picture quality as it reflects off the wall behind your TV or monitor.

## Soporte retroiluminado con luz de sesgo Manual del usuario

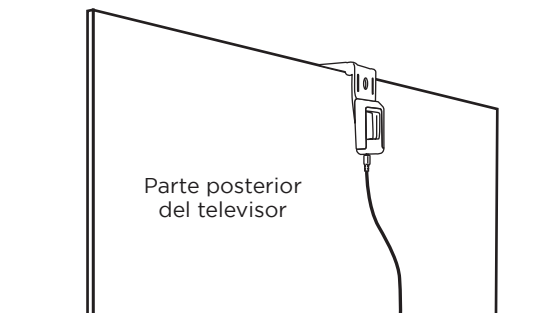

Conecte el cable Micro USB al soporte.  
Inserte el conector USB-A en el  
puerto USB-A del televisor o en un  
adaptador de corriente USB-A (no provisto).

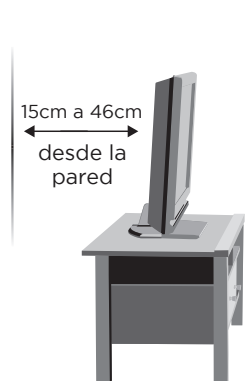

Use las cintas de gancho y bucle provistas  
para colocar el interruptor de control de la  
luz en el lugar que desee.

Coloque el soporte sobre el televisor  
con la luz mirando hacia la pared.

Mejor ubicación del televisor para una  
visualización optimizada cuando se  
usa la función de iluminación

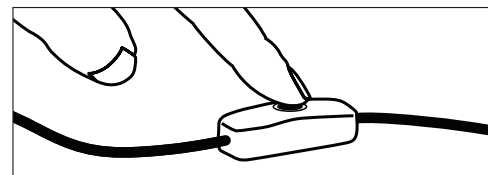

Soportes para televisor  
con inclinación y de  
movimiento completo

La luz no funciona con  
televisores fijos o montados  
a ras de la pared.

Para operar la luz de sesgo, presione  
y suelte el botón de encendido y apagado.

**A 6500K**, está comprobado científicamente  
que la luz blanca producida por este  
soporte reduce la fatiga visual y mejora la  
calidad de la imagen al reflejar la luz en la  
pared detrás de su televisor o monitor.
