www.byjasco.com

This device complies with Part 15 of the FCC and Industry Canada license exempt RSS standards. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

INSTALLATION

STEP 1: INSTALL STRING LIGHT

Carefully untie the string light and hang, wrap or place it in your preferred indoor or covered outdoor location. Ensure the 13ft. USB power cord is within reach of a power source.

STEP 2: UNTIE POWER CORD

Carefully untie and straighten out the USB power cord.

STEP 3: PLUG INTO USB-A PORT

Plug the USB power cord into a 5V, 1A minimum USB-A port or adapter (not included).
